Manually input each item	Manually input each item	No CO2 tracking	No eco aspect
No automation	No automation	No item view	No item view
Doesn't stop paper receipts	Doesn't stop paper receipts	No granular categorisation	No granular categorisation

All these apps offer similar features to Receipto but they all lack automation and any form of granular categorisation. Furthermore, to tackle climate change, we need to make the process as easy as possible, and having to manually input every item you buy will put a lot of users off.
